Year

You might need to change to an academic year that your child is enrolled in. To do that click on the Year button at the top right of the screen and select an academic year.

Student Summary

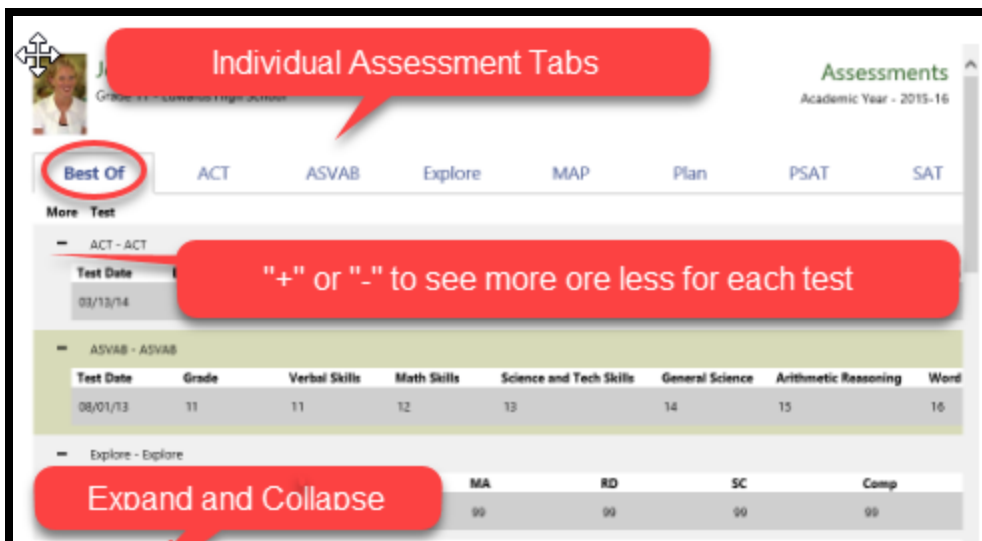

Upon logging in, the Student Summary screen is displayed. The student's picture and name appear in the upper-left of the window. Select the "Assessments" tile.

Assessment tile

The Assessments screen shows all student scores for any standardized tests or district-wide assessments that the student has taken.

The “ Best Of” tab shows the student’s best scores for each assessment.

The individual assessment tabs (in the screenshot above, ACT, ASVAB, etc.) show all student scores for that single assessment.

Click the “ +” button on each row to show more details about the assessment.

The “Expand All” and “ Collapse All” buttons will expand and collapse all of the rows in the grid.

Click the “Back” Student

button in the upper left corner to get to the Documents tile on the Summary Screen.

Documents tile

The Documents area shows all of the documents attached to your student and family. The File Name is a link that allows you to download the form and review it. This screen also includes the Description and Category. The “ For” column shows if it’s for a specific student or for the entire family. Each form also displays with the date the document was added and who added it.
